

FELL-FIT

Full and beautifully shiny fur

FUR-FIT is an ingredient complex made up of herbs, vitamins, micronutrients and fatty acids supporting the health and growth of strong, radiant fur.

The many different ingredients work together to leave dogs and cats with healthy, shiny coats that last. We have brought together a range of (natural) ingredients to create one product:

- Biotin (= vitamin H or B7)
- Zinc
- Freeze-dried redfish and salmon oil with valuable omega-3 fatty acids
- Algae (to promote pigmentation)
- Brewer's yeast (to promote cell division)
- Stinging nettle leaves (detoxifying, promotes hair growth)
- Dandelion leaves (detoxifying)
- Birch leaves (detoxifying)
- Milk thistle seeds (detoxifying)
- Elderberries (detoxifying)
- Vitamin B-complex

The combination of biotin and zinc provides the most important nutrients for a healthy, glowing coat. Both help provide a healthy, shiny coat and reduce the occurrence of avoidable, excess hair. They promote natural cell regeneration and strengthen the skin, fur and claws

Feeding recommendation

Small pets: 2 measuring spoons, mid-sized pets: 3-4 measuring spoons, large pets: 5 measuring spoons.
1 measuring spoon corresponds to 1 ml.

To be used before and during a change of coat: 2 x year, a course of min. 3 weeks. In the case of acute skin or fur problems: use twice the amount above over a period of at least 6 weeks.
